*Please add new claims 8 and 9 as follows:*

8. (New) A method of purchasing goods and services over a computer network, comprising the steps of:

conducting a search over the network to determine the most favorable advertised price for the goods or services;

obtaining said most favorable advertised price for goods and services from a first set of multiple vendors; and

using the most favorable advertised price for goods and services to solicit bids over the network from a second set of multiple vendors to obtain a price for the goods and services which is lower than the most favorable advertised price.

9. (New) A method of purchasing goods and services over the Internet, comprising the steps of:

obtaining a posted price associated with the goods and services from a first set of multiple vendors over the Internet;

determining a lowest posted price of the posted prices obtained in the previous step;

submitting a starting bid over the Internet which is lower than the lowest posted price;

collecting one or more reverse bids from a second set of multiple vendors over the Internet,

wherein each reverse bid represents a price which is lower than the starting bid;

selecting a final bid from among the reverse bids; and

purchasing the goods or services using the final bid.
